PRITISH AGNIHOTRI

Noida, India | +91 9971143045 | pritishagnihotriwork@gmail.com | github.com/09pritish

PROFESSIONAL SUMMARY

Results-driven professional with a blend of technical expertise and strong business, communication, and outreach skills. Experienced in working with web technologies, data-driven applications, and digital platforms, while also contributing to stakeholder coordination, PR, event management, and engagement initiatives. Proven ability to understand technical products, communicate effectively with diverse audiences, and drive initiatives from planning to execution. Looking to leverage this combination of technology, analytical thinking.

EDUCATION

Vellore Institute of Technology *Bhopal, India*
B.Tech in Computer Science & Engineering *2022 – 2026*
- CGPA: 7.80/10.0

SKILLS

- **Skills:** JavaScript (ES6+), MEAN/MERN Stack, TypeScript, SQL, Software Development, Software Testing, Debugging, Continuous Improvement, Application Performance Optimization
- **Core Competencies:** Business development, Market Research, Growth Strategy, Data Analysis, Cross-Functional Collaboration

EXPERIENCE

CES TECH *Delhi NCR, India*
Software Developer Intern *Mar 2026 – Present*
- Developed and deployed a scalable company website and role-based admin dashboard using Angular and TypeScript, enhancing UI responsiveness and improving user retention by 25%.
- Designed and implemented high-concurrency RESTful APIs using Node.js and MongoDB, optimizing backend data handling efficiency and reducing query latency by 20%.
- Collaborated with cross-functional teams to coordinate requirements and improve internal workflows, contributing to faster feature delivery and smoother execution.

Hanook International Logistics Pvt. Ltd. *Delhi NCR*
Software Developer Intern *Dec 2024 – Feb 2025*
- Architected and deployed a mission-critical shipment tracking portal, automating status updates for 45+ daily shipments and reducing manual data entry workload by 40%.
- Optimized backend data processing pipelines, accelerating internal report generation speed by 25% and ensuring 99.9% data integrity.
- Coordinated operational processes and stakeholder requirements to streamline shipment tracking and improve visibility across daily logistics activities.

TECHNICAL PROJECTS

BingeBite - High-Performance Food Discovery Platform *Sep 2025*
- Engineered a scalable full-stack web application hosting 20+ restaurant listings with optimized short-form video content to boost engagement.
- Revamped frontend rendering logic using React.js, achieving a 30% improvement in page load speed and content delivery efficiency.
- Developed robust RESTful APIs supporting 5+ daily concurrent user interactions with 100% test coverage via Postman.

Trackify - Real-Time Geolocation Service *Apr 2025*
- Spearheaded development of a real-time tracking system using Socket.IO and Leaflet.js, achieving millisecond-level latency for live location streaming.
- Designed a WebSocket-based communication protocol to handle periodic updates efficiently, maintaining data accuracy while reducing server load.
- Constructed a scalable Express.js backend architecture supporting multiple concurrent client connections with zero data loss.

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp - Udemy (Angela Yu)
- The Complete Python Bootcamp - Udemy (Jose Portilla)

LEADERSHIP & EXTRACURRICULARS

- **PR & Outreach Lead, Annual Fest 2024 (VIT Bhopal):** Directed communication strategies for 500+ participants, driving a 20% increase in event attendance.
- **Core Organizer, Sports Fest 2023 (VIT Bhopal):** Managed end-to-end logistics and operations for inter-college sports events.
